Projects

Forum'd
Express, React, MongoDB, Passport
2018

- Created an online forum with Node.js/Express, React, MongoDB and Bootstrap.
- Users can register accounts and create and edit a profile to track activity.
- Users can also submit, comment, edit, delete posts.
- Used Bcrypt.js to hash passwords and Passport.js to handle authentication strategy.
- Project Link: <http://theforumd.herokuapp.com/>

React Weather
React, Axios, Bootstrap
2017

- A weather app created with React and deployed with Github Pages.
- Shows current weather data of location (temperature, climate, visibility, wind speed, etc.).
- Used Axios to get JSON data from Dark Sky API and the Google Maps API.
- Project Link: <https://ebcperez.github.io/reactjsweather/>

Experience

Student Assistant Web Developer
California Secretary of State
May 2018 - July 2018

- Used HTML and CSS to improve and maintain the Secretary of State website under the supervision of agency staff.
- Ensured that web pages and documents were ADA compliant for easier accessibility.
